

2 S.I.S.™ On Line

Scientific Instrument Services, Inc.™ is proud to celebrate 30 years of service to the mass spec and scientific community. During this time we have grown to a staff of 37 and now operate in Ringoes, New Jersey and Plumsteadville, Pennsylvania.

Our 10,000 square foot Ringoes, NJ facility is home to our filament manufacturing, filament repair and other repair services, sub-assembly operations and our catalog product lines. The Ringoes location is also home to our offices, technical support, and our demo and research lab that work toward providing new and useful products for our diverse customer base.

Scientific Instrument Services, Inc.™, Ringoes, NJ

Scientific Instrument Services, Inc.™, Plumsteadville, Pa.

We have recently occupied a 10,000 square foot facility in Plumsteadville, Pa to house our ever growing scientific machining operation. We have over 20 CNC machines, including mills, lathes, and Swiss Screw machines and accompanying cleaning equipment to provide our customers with components made to exacting tolerances and free of any contaminants.

We want to thank all our loyal customers for their support during the past 30 years and we look forward to serving you for the next 30 years.
