

## Micro-Mesh® Regular - Silicon Carbide Abrasive

Use these products for finishing plastics, acrylics, polycarbonates, bakelite, fiberglass, gelcoat, urethanes, celluloid, lacquers, fiberglass, cast polymers, soft woods, cultured marble, coatings, composites, some metals and more.

This material is made to be used wet or dry and is made with a flexible cotton backing with polymer emulsion cushioning layer and large micron graded silicon carbide crystals suspended in and ultra flexible resin bond. Grades 8000 and 12000 are made with aluminum oxide crystals.

| Part No. | Description                            | Micron |
|----------|--|--------|
| MM-1500  | 4" x 6" sheet, 1500 Grit               | 30     |
| MM-1800  | 4" x 6" sheet, 1800 Grit               | 15     |
| MM-2400  | 4" x 6" sheet, 2400 Grit               | 12     |
| MM-3200  | 4" x 6" sheet, 3200 Grit               | 8.5    |
| MM-3600  | 4" x 6" sheet, 3600 Grit               | 8      |
| MM-4000  | 4" x 6" sheet, 4000 Grit               | 5      |
| MM-6000  | 4" x 6" sheet, 6000 Grit               | 4      |
| MM-8000  | 4" x 6" sheet, 8000 Grit               | 3      |
| MM-12000 | 4" x 6" sheet, 12000 Grit              | 2      |
| MMB      | Polishing/File board                   |        |
| MMK-1    | Kit of All 9 Grits & 1 Polishing Board |        |
| MMK-2    | Kit of 8 Finer Grits (1800 - 12000)    |        |
| MMK-3    | Kit of 4 Finest Grits (4000 - 12000)   |        |

## Micro-Mesh® MX - Silicon Carbide Crystal Abrasive With Thicker Backing

Use these products for finishing stainless steel, brass, copper, other metals and hard wood.

This material is made to be used wet or dry, and is made with a flexible cotton backing with polymer emulsion cushioning layer and large micron graded silicon carbide crystals suspended in a flexible resin bond. The bond in the MX is less flexible than in the REGULAR so you can achieve a high gloss on metals.

Abrasive colors of this product range from dark grey to light grey. Grades 800 MX and 1200 MX are made with aluminum oxide crystals.

| Part No. | Description              | Micron |
|----------|--------------------------|--------|
| MX-60    | 4" x 6" sheet, 60 Grit   | 60     |
| MX-80    | 4" x 6" sheet, 80 Grit   | 45     |
| MX-100   | 4" x 6" sheet, 100 Grit  | 43     |
| MX-120   | 4" x 6" sheet, 120 Grit  | 42     |
| MX-150   | 4" x 6" sheet, 150 Grit  | 35     |
| MX-180   | 4" x 6" sheet, 180 Grit  | 30     |
| MX-240   | 4" x 6" sheet, 240 Grit  | 15     |
| MX-320   | 4" x 6" sheet, 320 Grit  | 12     |
| MX-360   | 4" x 6" sheet, 360 Grit  | 10     |
| MX-400   | 4" x 6" sheet, 400 Grit  | 9      |
| MX-600   | 4" x 6" sheet, 600 Grit  | 5      |
| MX-800   | 4" x 6" sheet, 800 Grit  | 4      |
| MX-1200  | 4" x 6" sheet, 1200 Grit | 3      |

## Micro-Mesh® Aluminum Oxide AO Aluminum Oxide Crystal Abrasive

Use these products for finishing aluminum and for finishing solid surface countertops, such as Corian and Avonite, etc.

Color of these products range from off-white to yellow. This material is made to be used wet or dry and is made with a flexible cotton backing with polymer emulsion cushioning layer and large micron graded aluminum oxide crystals suspended in an ultra flexible resin bond.

| Part No.  | Description               | Micron |
|-----------|---------------------------|--------|
| MAO-300   | 4" x 6" sheet, 300 Grit   | 80     |
| MAO-600   | 4" x 6" sheet, 600 Grit   | 43     |
| MAO-800   | 4" x 6" sheet, 800 Grit   | 35     |
| MAO-1500  | 4" x 6" sheet, 1500 Grit  | 30     |
| MAO-1800  | 4" x 6" sheet, 1800 Grit  | 15     |
| MAO-2400  | 4" x 6" sheet, 2400 Grit  | 12     |
| MAO-3200  | 4" x 6" sheet, 3200 Grit  | 8.5    |
| MAO-3600  | 4" x 6" sheet, 3600 Grit  | 8      |
| MAO-4000  | 4" x 6" sheet, 4000 Grit  | 5      |
| MAO-6000  | 4" x 6" sheet, 6000 Grit  | 4      |
| MAO-8000  | 4" x 6" sheet, 8000 Grit  | 3      |
| MAO-12000 | 4" x 6" sheet, 12000 Grit | 2      |

## Micro-Mesh® MXD - Diamond Crystal Abrasive

Use these products for finishing hard metal alloys, glass quartz ceramics, natural granite, and natural marble.

Abrasive colors of this product range from greenish gold to gold. This material is made to be used wet or dry and is made with flexible cotton backing with polymer emulsion cushioning layer and large micron graded DIAMOND crystals suspended in an ultra flexible resin bond.

| Part No. | Description              | Micron |
|----------|--------------------------|--------|
| MXD-100  | 3" x 9" sheet, 100 Grit  | 100    |
| MXD-120  | 3" x 9" sheet, 120 Grit  | 80     |
| MXD-180  | 3" x 9" sheet, 180 Grit  | 60     |
| MXD-280  | 3" x 9" sheet, 280 Grit  | 42     |
| MXD-400  | 3" x 9" sheet, 400 Grit  | 25     |
| MXD-500  | 3" x 9" sheet, 500 Grit  | 17     |
| MXD-600  | 3" x 9" sheet, 600 Grit  | 10     |
| MXD-800  | 3" x 9" sheet, 800 Grit  | 9.5    |
| MXD-1200 | 3" x 9" sheet, 1200 Grit | 9      |
| MXD-1500 | 3" x 9" sheet, 1500 Grit | 5      |
| MXD-1800 | 3" x 9" sheet, 1800 Grit | 2      |
