

B8 Agilent 5970 MSD® Accessories by S.I.S.

MSD Injection Port Repair

Both the old style and the new style injection ports from the Agilent Technologies 5970 GC/MS system can be repaired by S.I.S.™ This injection port is Agilent#19251-60520. The stainless steel lines often develop leaks where they are welded to the injection port or the lines can become clogged or kinked. S.I.S. will repair or replace the lines as required.
