

ProteCol Capillary Columns

ProteCol Capillary Columns feature an integrated column and connection tubing design to achieve excellent peak symmetry and efficiency. The combination of PEEKsil™ column and connecting tubing with a zero dead volume design allows optimum flow characteristics with minimal dispersion.

ProteCol Unions

Precision engineered for Capillary LC, ProteCol Unions offer complete versatility for connecting a range of capillary tubing. Manufactured to exacting tolerances and available in PEEK™ and stainless steel, the zero dead volume design provides faultless butt connections.

ProteCol Stainless Steel Unions (2 unions & 4 PEEK ferrules)

Part No.	Description	Price
212006	1/16" to 1/16"	
212007	1/16" to 1/32"	
212008	1/16" to 0.36mm	
222005	1/32" to 1/32"	
222006	1/32" to 0.36mm	
222007	0.36mm to 0.36mm	

ProteCol PEEK Unions (2 unions & 4 PEEK ferrules)

Part No.	Description	Price
212009	1/16" to 1/16"	
212010	1/16" to 1/32"	
212011	1/16" to 0.36mm	
222009	1/32" to 1/32"	
222010	1/32" to 0.36mm	
222011	0.36mm to 0.36mm
