Colortite Fingertight Conversion Fittings

We recommend the Colortite snap-on fingertight conversion for color-coding 1/4" hex-head nuts (P/N E315, E316, E400, E401 & E402). These items are useful for color-coding different solvent lines, and they instantly turn your hex-head nuts into fingertight fittings. Colortites can be used with any 1/4" PEEK or stainless nuts. Each pack of 10 is available in one of six colors, or you may order the assortment pack with 5 pieces of each color
