

E58 *Tools for Chromatographers*

Tubing Cutter

This is the best tool ever for cutting small diameter metal tubing! Scores tubing perfectly for clean, open, burr-free cuts.

Part Number	Description	Price
E800	Tubing cutter	
E801	Replacement wheel	

Stainless Tubing Pliers

Designed for quick, clean cuts leaving the inside of your tubing open and round.

Part Number	Description	Price
E810	Tubing pliers	

Quick-Cut for Plastic Tubing

Cuts PEEK™, PTFE, Tefzel™, Nylon, and other plastic tubing cleanly and without crushing. This cutter has guide holes for tubing from 1/16" to 1/8" in diameter and a replaceable blade.

Part Number	Description	Price
E820	Quick-Cut	
E821	Replacement blade.	

S.I.S.™ Smartwrench

Stop struggling with your valve connections! This handy wrench was designed specifically for close-quarters work on HPLC injection valves, but it works just as well on GC inlet connections and transfer lines. Fits 1/4" and 5/16" nuts.

Part Number	Description	Price
E830	Smartwrench
