

# F18 Mechanical Pump Oils

## Inland 21 Pump Fluid

- Additive Package
- Increased Fluid Life
- Lower Vapor Pressure Capacity

Inland 21 Pump Fluid is used in mechanical pumps that are exposed to reactive or corrosive gases. The additive package included in the fluid is designed to help resist oxidation and decomposition. Inland 21 also undergoes molecular distillation, ensuring good vapor pressure capabilities.

Part No.	Description
IN21-1	Invoil 21 - 1 gal. bottle
IN21-5	Invoil 21 - 5 gal. drum
IN21-12	Inland 20 -12 x 1Liter
1N424	5 Gallon Drum Pump

## Inland TW Pump Fluid

- Longest Lasting Hydrocarbon
- Ideal for Corrosive Service
- Replaces Fomblin and Krytox in Many Applications
- Recommended in many Electrospray Applications
- Direct replacement for Alcatel 300 fluid

Inland TW mechanical pump fluid is specifically recommended for applications where exposure to reactive or corrosive gases is prevalent. This Inland product is a distilled hydrocarbon containing no additives. Both unsaturates and aromatics have been removed, resulting in a superior, longer lasting pump fluid. Typical applications include electrospray and particle beam. When compared to Invoil™ 20, Inland TW will last 1.5 to 4 times longer.

Part No.	Description
INTW	Inland TW Pump Fluid - 1 gal. bottle
INTW-5	Inland TW Pump Fluid - 5 gal. drum
INTW-12	Inland TW Pump Fluid - 12 x 1Liter
INTW-L	Inland TW Pump Fluid - 1 x 1Liter
1N424	5 Gallon Drum Pump
