

# G6 *Micro-Mesh® Kits*

## *Micro-Mesh Acrylic Plastic Kits for use with Power Tools*

The following Micro-Mesh kits have been developed for use with standard power tools to restore acrylic back to optical clarity using a minimum number of steps. All kits come with easy to read instructions. Micro-Mesh is approved by Boeing/McDonnell Douglas, the military, and the FAA.

### *Heavy Damage Removal Mechanical Kit*

Our most complete, easy-to-use mechanical kit. Used to remove crazing, severe scratches and haze from up to 100 square feet of acrylic plastics. This kit will polish the surface back to optical clarity.

Part No.	Description	Price
3KHDK	<b>Micro-Mesh Heavy Damage Removal Kit</b>	
<b>Kit includes:</b>		
5	5" loop back discs, wet/dry 120 grit	1 5" Extra soft hook face pad with 5/16 x 24 male thread

2	Cotton flannel clothes	
1	Instructions	

### *Light Damage Removal Mechanical Kit*

This kit removes minor scratching and scuff marks from up to 100 square feet of acrylic plastics.

Part No.	Description	Price
3KLDK	<b>Micro-Mesh Light Damage Removal Kit</b>	
<b>Kit includes:</b>		
2	5" loop back discs, Micro-Mesh 1500	1 5" TufBuf lambs wool polishing pad
2	5" loop back discs, Micro-Mesh 2400	1 5" White sponge polishing pad
2	5" loop back discs, Micro-Mesh 3600	1 8 oz. bottle of Micro-Gloss
1	5" Extra soft hook face pad with 5/16 x 24 male thread	1 8 oz. bottle of anti-static cream
2	Cotton flannel clothes	
1	Instructions	

### *Polycarbonate Rectification Kit*

This kit will improve up to 100 square feet of polycarbonate so that it is more acceptable. Polycarbonate cannot be restored to optical clarity like acrylic because it is so much softer, however, it can be greatly improved with this kit.

Part No.	Description	Price
3KPOLY	<b>Micro-Mesh Polycarbonate Rectification Kit</b>	
<b>Kit includes:</b>		
1	5" loop back discs, Micro-Mesh 2400	1 5" White sponge polishing pad
