

Micro-Mesh Kits for Hand Use

The following Micro-Mesh® kits have been developed for hand use. They are all versatile and large enough for major acrylic/plastic restoral projects. Perfect for restoring interior windows, lens covers, domes, or any acrylic surface. Other kits have been developed for use by Craftsman for sanding and polishing wood, plastic, metals, paint, countertops and much more. All kits come with easy to read instructions. Micro-Mesh® is approved by Boeing/McDonnell Douglas, the Military, and the FAA.

KR-70 Acrylic Restoration Kit

Our most popular kit for small acrylic jobs up to 30 square feet. Perfect for interior windows, areas where power tools will not fit, landing light lenses, etc.
